Company Description

IBIS Power is a company developing renewable energy technologies in a most effective and acceptable way for society. Our motto is "Redesigning Renewable Energy", where we take state-of-the-art technology and transform it with added value into products that have highest impact in society towards a green and healthy future. Our team exists from scientist, engineers and architects who work together in R&D and project management to marketing and sales people focusing on implementation and supplying society for highest impact. The recently received EU project includes the complete R&D and business development for the European market of an innovative energy system for the built environment.

Job offering

We offer a full-time position for a Project Manager coming available per April 1st 2015. You will closely collaborate with a dynamic team with mostly young professionals ranging from engineers, designers and business developers in the field of renewable energy and sustainability acting on the global market. You will be responsible for implementation and planning of projects and product placement in the building sector.

Salary will be based on experience. The position includes the following tasks and responsibilities:

- Take responsibility on project planning and team progress
- Be point of communication of delivery, production, partners and customers
- Evaluate the process and give input for process optimization
- Give input on design optimization
- Handle permits, coding requirements, and construction agreements
- Take part and give input in management meetings
- Lead the project team

Job requirements

- Min. Master's degree in Engineering construction related studies (Bouwkunde)
- Five years of experience in related field
- Experience with project planning
- Experience with applicable software
- Profound Dutch and English verbal and writing skills
- Independent worker, but well performing in a team
- Good communication skills

If you are interested, please send us a personal motivation letter, Curriculum Vitae including the names and contact details of three references, and an overview of current research/business interests. Screening of applications will start as soon as applications are received and will continue until the position has been filled.
